AQUASEAL CERAMICSTAR

Fast, Robust and a Star for Renovation Works!

The new two-component, water-based hardwood floor finish AQUASEAL CERAMICSTAR is a star in the Berger-Seidle product range. This product achieves top values and thus also represents a new product generation and technology level. For the user the advantages in detail are highly interesting. Thanks to its water-based approach this product contributes its share towards environment protection and the protection of users' and final customers' health, as well as resources' saving.

AQUASEAL CERAMICSTAR is available in the user-friendly 2C-combo packaging, as usual with Berger-Seidle 2C systems.

The Benefits

+ AQUASEAL CERAMICSTAR features an **excellent resistance**, supported by ceramic components contained in the formula, which provide for a new resilience on the floor.

+ AQUASEAL CERAMICSTAR allows for an **extremely quick finished floor usability**. The floors are ready for use already **12 hours** after the last coat was applied, which in many cases now solves the needs of quick use.

+ AQUASEAL CERAMICSTAR is the **optimum solution for renovating of old floors**. Even aggressive old substances in the floors, such as **salt remnants in the gaps** and wood, will be optimally blocked off without the look suffering. This product achieves outstanding values compared with competing products, as shown in extensive tests.

+ AQUASEAL CERAMICSTAR is formulated **very user-friendly**. It makes for excellent and easy usage.

+ AQUASEAL CERAMICSTAR is certified according to **skid resistance rating R9** (BGR 181 and DIN 51130) or **R10/R11** when adding our AQUASEAL ANTISLIP ADD

+ AQUASEAL CERAMICSTAR meets the requirements of classification **Cfl-S1 according to DIN EN 13501-1** for fire behavior.

Problem:
Typical renovation case

Solution:
AQUASEAL CERAMICSTAR

Advantages for Craftsmen:

- + High product safety, even for old floors
- + High user-friendliness
- + Fast site work
- + Happy customers

Advantages for Customers:

- + High robustness of the floors maximizes their life times
- + Fast use possible without long waiting times
- + Additional safety for old floors
- + High satisfaction and additional skid resistance
- + Increased fire protection
