BRILLIANCE MEDICALLINE

Medical disinfection with high effectivity

For the hands:

BRILLIANCE MEDICALCLEANER is a ready-to-use, liquid and fast-acting, alcoholic disinfectant for professional and private use. Through his high alcohol content it is very effective and can thus be used to prevent effective infections. It is used for hygienic cleaning against bacteria, levuricidal and enveloped viruses (such as influenza or corona), these are inactivated or killed with an effectiveness of 99.999%. So it is therefore ideally suited for hospitals, medical practices, cleaning companies, nursing services, schools, industry, trade, public buildings or other companies to protect the Health of employees, customers and visitors. BRILLIANCE MEDICALCLEANER complies with BauA Reg.Nr.: 89290.

Application: Hyg. hand disinfection: Rub 3-4ml undiluted into dry hands. Keep hands moist for 30 sec. with the undiluted preparation. (EN 1500) 30 sec.. Surface disinfection without mechanics: Tested on the basis of EN 13727 and EN 13624 against bactericides and yeasts. Spray the product on a clean surface and let it work for 15 minutes. It is for articles of daily use (door handles, banisters, telephone, etc.) are suitable. Compatibility check against the surface material. Please note the explosion protection.

For the surfaces:

BRILLIANCE MEDICALSURFACE is a ready-to-use, liquid surface disinfectant for professional use. It is solvent-free, avoid the risk of alcohol-based fire, has no hazard pictograms and is ideal as an aqueous sodium hypochloride solution for small and large areas, such as floors, tables, furniture, loungers, windows or doors. It is used for hygienic cleaning against bacteria, levurocides and viruses (such as Influenza or Corona). These are inactivated or killed with an effectiveness of 99.999%. This makes it ideal for hospitals, medical services, building cleaners, nursing services or other companies and professional users to protect the health of employees and visitors. The alcohol-free formulation of BRILLIANCE MEDICALSURFACE has two major advantages over alcohol-based products: 1. The risk of fire due to the extensive use of alcohol is completely eliminated here. 2. There is no alcohol-related damage to the surface. BRILLIANCE MEDICALSURFACE complies with BauA Reg.Nr.: 96370 Federal Institute for Occupational Safety and Health, has a Dermatest certificate, VAH certification passed in the listing process.

Application: The product is applied to the surface with a hand spray bottle, with a sponge or mop and bucket without predilution. Use a sufficient amount of the ready-to-use solution so that the treated surfaces remain moist throughout the exposure. The minimum contact time is 5 minutes; if it is contaminated with yeast, leave it on for 15 minutes and wipe it off with a clean cloth.
