Hazard	statements
H226	

- Flammable liquid and vapour. H350
 - May cause cancer.
- H336 May cause drowsiness or dizziness.
- H412 Harmful to aquatic life with long lasting effects.

Precautionary statements

Obtain special instructions before use.
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Ground and bond container and receiving equipment.
Use explosion-proof electrical equipment.
Use non-sparking tools.
Take action to prevent static discharges.
Avoid breathing vapours.
Use only outdoors or in a well-ventilated area.
Avoid release to the environment.
Wear protective gloves and eye/face protection.

Hazard components for labelling

2.3. Other hazards

Spontaneous ignition possible through autoxidation of cloths soaked in the product. (The same applies to dust and other paint-soaked items). The product itself is not self ignitive.

Other information

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Description Oils/waxes, high in solvents, aromatics removed

Hazardous ingredients

GHS-US classification

CAS No.	Designation // Remark	weight-%
	Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics	25 - 50
64742-48-9	Naphtha (petroleum), hydrotreated heavy	20 - 25
	Hydrocarbons, C11-C12, isoalkanes, < 2% aromatics	1 - 2,5
22464-99-9	2-ethylhexanoic acid, zirconium salt	0,5 - 1
96-29-7	butanone oxime	0,25 - 0,5
85711-46-2	Fatty acids, C14-18 and C16-18-unsatd., maleated	0,25 - 0,5
85-44-9	phthalic anhydride	0,1 - 0,25

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

Following skin contact

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

Article No.:	KP650000BJ10	SolvSeal LT Export Extra	
Print date:	26.07.2023	Revision date: 24.07.2023	56142 US
Version:	13.0003	Issue date: 17.07.2023	Page 3 / 10

Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

- 4.2. **Most important symptoms and effects, both acute and delayed** In all cases of doubt, or when symptoms persist, seek medical advice.
- 4.3. **Indication of any immediate medical attention and special treatment needed** First Aid, decontamination, treatment of symptoms.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water) Unsuitable extinguishing media

strong water jet

5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

5.3. Advice for firefighters

Provide a conveniently located respiratory protective device.Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

6.2. Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advices on safe handling

Avoid formation of flammable and explosive vapour concentrations in the air and exceeding the exposure limit values. Only use the material in places where open light, fire and other flammable sources can be kept away. Electrical equipment must be protected meeting the accepted standard. Keep away from heat sources, sparks and open flames. Use only spark proof tools. Avoid contact with skin, eyes and clothes. Do not inhale dusts, particulates and spray mist when using this preparation. Avoid respiration of swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

Further information

Vapours are heavier than air. Vapours form explosive mixtures with air.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

Further information on storage conditions

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 15 °C and 25 °C. Protect

Article No.:	KP650000BJ10	SolvSeal LT Export Extra

Version:	13.0003	Issue date: 17.07.2023

56142 US Page 4 / 10

from heat and direct sunlight.

Due to the content of organic solvents in the preparation:

Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limit values

Naphtha (petroleum), hydrotreated heavy Index No. 649-327-00-6 / EC No. 265-150-3 / CAS No. 64742-48-9

OSHA, PEL, STEL: 400 mg/m3; 100 ppm phthalic anhydride Index No. 607-009-00-4 / EC No. 201-607-5 / CAS No. 85-44-9 IDLH, TWA: 60 mg/m3 OSHA, TWA: 12 mg/m3; 2 ppm NIOSH, TWA: 6 mg/m3; 1 ppm ACGIH, TWA: 0,002 mg/m3 ACGIH, STEL: 0,005 mg/m3 Remark: (may be absorbed through the skin)

Additional information

 $\label{eq:two} \begin{array}{l} \mathsf{TWA}: \mathsf{Long-term} \mbox{ occupational exposure limit value} \\ \mathsf{STEL}: \mathsf{short-term} \mbox{ occupational exposure limit value} \\ \mathsf{C}: \mathsf{peak} \mbox{ limitation} \end{array}$

8.2. Exposure controls

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

Personal protection equipment

Respiratory protection

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190). Use only respiratory protection equipment with CE-symbol including four digit test number.

Hand protection

For prolonged or repeated handling the following glove material must be used: Butyl caoutchouc (butyl rubber)

Thickness of the glove material > 0,4 mm ; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

Eye/face protection

Wear closely fitting protective glasses in case of splashes.

Body protection

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

Protective measures

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

Environmental exposure controls

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Hydrocarbons, C11-C12, isoalkanes, < 2% aromatics Aspiration hazard

Naphtha (petroleum), hydrotreated heavy

Article No.:	KP650000BJ10	SolvSeal LT Export Extra	
Print date:	26.07.2023	Revision date: 24.07.2023	56142 US
Version:	13.0003	lssue date: 17.07.2023	Page 7 / 10

Aspiration hazard

Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: headache, dizziness, fatigue, amyosthenia, drowsiness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

Overall assessment on CMR properties

Designation	Classification according to
	Regulation (EC) No 1272/2008
	[CLP]
butanone oxime	Carc. 1B

Remark

There is no information available on the preparation itself . The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and classified according to the toxicological dangers. See chapters 2 and 15 for details.

11.2. Information on other hazards

Endocrine disrupting properties No information available.

SECTION 12: Ecological information

Classification according to Regulation (EC) No 1272/2008 [CLP] Do not allow to enter into surface water or drains.

12.1. Toxicity

Harmful to aquatic organisms.

Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics Daphnia toxicity, EL50, Daphnia magna (Big water flea) 22 - 46 mg/L (48 h) Algae toxicity, EL50, Pseudokirchneriella subcapitata: > 1000 mg/L (72 h) Algae toxicity, NOELR, Pseudokirchneriella subcapitata: < 1 mg/L (72 h) Fish toxicity, LL50, Oncorhynchus mykiss (Rainbow trout) 10 - 30 mg/L (96 h)

Naphtha (petroleum), hydrotreated heavy

Fish toxicity, LC50 (96 h) Algae toxicity, EL50: > 1000 mg/L (72 h) Method: OECD 201 Daphnia toxicity, EL50: > 1000 mg/L (48 h) Method: OECD 202 Fish toxicity, CL50: > 100 mg/L (96 h) Method: OECD 202

Fatty acids, C14-18 and C16-18-unsatd., maleated
Daphnia toxicity, EC50, Daphnia magna (Big water flea): > 100 mg/L (48 h); Evaluation semistatic Method: OECD 202
Algae toxicity, ErC50, Pseudokirchneriella subcapitata: > 100 mg/L (72 h); Evaluation semistatic Method: OECD 201
Fish toxicity, LC50, Leuciscus idus (golden orfe): > 150 mg/L (48 h)
Method: DIN 38412
Bacteria toxicity, EC50, Activated sludge: > 1000 mg/L (3 h); Evaluation static test Method: OECD 209

Long-term Ecotoxicity

Harmful to aquatic life with long lasting effects.

12.2. Persistence and degradability

Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics : 89 % (28 D)

12.3. Bioaccumulative potential

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal regulations

Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances [Seveso-III-Directive] Category: P5c FLAMMABLE LIQUIDS

Quantity 1: 5000 t / Quantity 2: 50000 t

Directive 2010/75/EU on industrial emissions [Industrial Emissions Directive]

VOC-value (in g/L) ISO 11890-2: 495 VOC-value (in g/L) ASTM D2369: 495

Directive 2004/42/EC on the limitation of emissions of volatile organic compounds

VOC product category: (Cat. A/i) ; VOC limit value: 500 g/l

Maximum VOC content of the product in a ready to use condition (in g/L): 495

National regulations

Restrictions of occupation

Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC).

Substance/product listed in the following inventories:

TSCA: All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption

15.2. Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

SECTION 16: Other information

Full text of classification in section 3:			
Skin Irrit. 3 / H316	Skin corrosion/irritation	Causes mild skin irritation.	
STOT SE 3 / H336	STOT-single exposure	May cause drowsiness or dizziness.	
Asp. Tox. 1 / H304	Aspiration hazard	May be fatal if swallowed and enters airways.	
Aquatic Acute 3 / H402	Hazardous to the aquatic environment	Harmful to aquatic organisms.	
Aquatic Chronic 3 / H412	Hazardous to the aquatic environment	Harmful to aquatic life with long lasting effects.	
Flam. Liq. 3 / H226	Flammable liquids	Flammable liquid and vapour.	
Repr. 2 / H361	Reproductive toxicity	Suspected of damaging the unborn child.	
Carc. 1B / H350	Carcinogenicity	May cause cancer (state route of exposure if it	
	0	is conclusively proven that no other routes of	
		exposure cause the hazard).	
Acute Tox. 4 / H312	Acute toxicity (dermal)	Harmful in contact with skin.	
Acute Tox. 3 / H301	Acute toxicity (oral)	Toxic if swallowed.	
STOT SE 1 / H370	STOT-single exposure	Causes damage to organs (or state all organs	
	5	affected, if known) (state route of exposure if it	
		is conclusively proven that no other routes of	
		exposure cause the hazard).	
STOT RE 2 / H373	STOT-repeated exposure	May cause damage to organs (or state all	
		organs affected, if known) through prolonged or	
		repeated exposure (state route of exposure if it	
		is conclusively proven that no other routes of	
		exposure cause the hazard).	
Skin Irrit. 2 / H315	Skin corrosion/irritation	Causes skin irritation.	
Eye Dam. 1 / H318	Serious eye damage/eye irritation	Causes serious eye damage.	
Skin Sens. 1 / H317	Respiratory or skin sensitisation	May cause an allergic skin reaction.	
Acute Tox. 4 / H302	Acute toxicity (oral)	Harmful if swallowed.	
STOT SE 3 / H335	STOT-single exposure	May cause respiratory irritation.	
Resp. Sens. 1 / H334	Respiratory or skin sensitisation	May cause allergy or asthma symptoms or	
-	- -	breathing difficulties if inhaled.	
Classification procedure		-	

Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]				
Flam. Liq. 3	Flammable liquids	On basis of test data.		
Skin Irrit. 3	Skin corrosion/irritation	Calculation method.		
Carc. 1B	Carcinogenicity	Calculation method.

Further information

Classification according to Regulation (EC) No 1272/2008 [CLP]

The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. Without written approval, the product must not be used for purposes different from those mentioned in section 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.
