	mponents for labe		•	

2.3. Other hazards

Spontaneous ignition possible through autoxidation of cloths soaked in the product. (The same applies to dust and other paint-soaked items). The product itself is not self ignitive.

Other information

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Description Oil epoxy resin sealants, high in solvents, aromatics removed

Hazardous ingredients

GHS-US classification

CAS No.	Designation // Remark	weight-%
64742-48-9	Naphtha (petroleum), hydrotreated heavy	15 - 20
	Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics	7,5 - 10
64742-95-6	Hydrocarbons, C9, aromatics	2,5 - 5
22464-99-9	2-ethylhexanoic acid, zirconium salt	0,5 - 1
96-29-7	butanone oxime	0,1 - 0,25
85711-46-2	Fatty acids, C14-18 and C16-18-unsatd., maleated	0,1 - 0,25
2457-01-4	Barium bis(2-ethylhexanoate)	0,1 - 0,25
	Reaction mass of 12-hydroxy-N-[2-[(1-oxodecyl)amino]ethyl]octadecanamide, 12-hydroxy-N-[2-[(1-oxooctyl)amino]ethyl]octadecanamide and N,N'-1,2-ethanediylbis[12-hydroxyoctadecanamide]	< 0,1

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

Following skin contact

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

After eye contact

Article No.:	KP709104GZ10	SolvSeal SportMarking COLOR	
Print date:	25.02.2023	Revision date: 25.02.2023	56142 US
Version:	22.0001	lssue date: 25.01.2023	Page 3 / 11

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

In all cases of doubt, or when symptoms persist, seek medical advice.

4.3. **Indication of any immediate medical attention and special treatment needed** First Aid, decontamination, treatment of symptoms.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water)

Unsuitable extinguishing media

strong water jet

5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

5.3. Advice for firefighters

Provide a conveniently located respiratory protective device. Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

6.2. Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advices on safe handling

Avoid formation of flammable and explosive vapour concentrations in the air and exceeding the exposure limit values. Only use the material in places where open light, fire and other flammable sources can be kept away. Electrical equipment must be protected meeting the accepted standard. Keep away from heat sources, sparks and open flames. Use only spark proof tools. Avoid contact with skin, eyes and clothes. Do not inhale dusts, particulates and spray mist when using this preparation. Avoid respiration of swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

Further information

Vapours are heavier than air. Vapours form explosive mixtures with air.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

Article No.:	KP709104GZ10	SolvSeal SportMarking COLOR	
Print date:	25.02.2023	Revision date: 25.02.2023	56142 US
Version:	22.0001	Issue date: 25.01.2023	Page 4 / 11

Further information on storage conditions

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 15 °C and 25 °C. Protect from heat and direct sunlight.

Due to the content of organic solvents in the preparation:

Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limit values Naphtha (petroleum), hydrotreated heavy Index No. 649-327-00-6 / EC No. 265-150-3 / CAS No. 64742-48-9

OSHA, PEL, STEL: 400 mg/m3; 100 ppm

Additional information

TWA : Long-term occupational exposure limit value STEL : short-term occupational exposure limit value C : peak limitation

DNEL:

Hydrocarbons, C9, aromatics

Index No. 649-356-00-4 / EC No. 265-199-0 / CAS No. 64742-95-6

DNEL long-term inhalative (systemic), Consumer: 2,9 mg/m³

DNEL long-term exposure oral (systemic effects), Consumer: 8,3 mg/kg bw/day

PNEC:

Reaction mass of 12-hydroxy-N-[2-[(1-oxodecyl)amino]ethyl]octadecanamide,

12-hydroxy-N-[2-[(1-oxooctyl)amino]ethyl]octadecanamide and N,N'-1,2-ethanediylbis[12-hydroxyoctadecanamide] EC No. 484-050-2

PNEC aquatic, freshwater: 1,46 x10^-4 mg/L

PNEC aquatic, marine water: 1,46 x10^-5 mg/L

PNEC aquatic, intermittent release: 2,5 x10[^]-4 mg/L

PNEC sediment, freshwater: 55,54 mg/kg

PNEC sediment, marine water: 5,554 mg/kg

PNEC, soil: 66,576 mg/kg

PNEC sewage treatment plant (STP): 10 mg/L

8.2. Exposure controls

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

Personal protection equipment

Respiratory protection

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190). Use only respiratory protection equipment with CE-symbol including four digit test number.

Hand protection

For prolonged or repeated handling the following glove material must be used: Butyl caoutchouc (butyl rubber)

Article No.:	KP709104GZ10	SolvSeal SportMarking COLOR	
Print date:	25.02.2023	Revision date: 25.02.2023	56142 US
Version:	22.0001	Issue date: 25.01.2023	Page 5 / 11

Thickness of the glove material > 0,4 mm ; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

Eye/face protection

Wear closely fitting protective glasses in case of splashes.

Body protection

9.2.

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

Protective measures

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

Environmental exposure controls

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state:	Liquid
Colour:	white
Odour:	characteristic
Odour threshold:	not applicable
Initial boiling point and boiling range:	110 °C
	Source: Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics
Lower and upper explosion limit:	
Lower explosion limit:	0,8 Vol-%
Upper explosion limit:	8 Vol-%
	Source: Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics
Flash point:	24 °C
Auto-ignition temperature:	200 °C
.	Source: Naphtha (petroleum), hydrotreated heavy
Decomposition temperature:	not applicable
pH at 20 °C:	not applicable
Cinematic viscosity (40°C):	< 700 mm²/s
Viscosity at 20 °C:	95 s 4 mm
	Method: DIN 53211
Solubility(ies):	insoluble
Water solubility at 20 °C:	
Partition coefficient: n-octanol/water:	see section 12
Vapour pressure at 20 °C:	10 mbar Method: calculated.
	Source: Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2%
	aromatics
Density and/or relative density:	
Density at 20 °C:	1,15 g/cm³
	Method: ISO 2811, part 3
Relative vapour density:	not applicable
particle characteristics:	not applicable
Other information	
Colvent concretion texts	
Solvent separation test:	< 3 weight-% (ADR/RID)

Article No.:	KP709104GZ10	SolvSeal SportMarking COLOR

SECTION 10: Stability and reactivity

10.1. Reactivity

No information available.

10.2. Chemical stability

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7.

10.3. Possibility of hazardous reactions

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

10.4. Conditions to avoid

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7. Hazardous decomposition byproducts may form with exposure to high temperatures.

10.5. **Incompatible materials** not applicable

10.6. Hazardous decomposition products

Hazardous decomposition byproducts may form with exposure to high temperatures, e.g.: carbon dioxide, carbon monoxide, smoke, nitrogen oxides.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics oral, LD50, Rat: > 5000 mg/kg Method: OECD 401 dermal, LD50, Rabbit: > 5000 mg/kg Method: OECD 402 inhalative (vapours), LC50, Rat: > 4951 mg/L (4 h) Method: OECD 403

Hydrocarbons, C9, aromatics oral, LD50, Rat: > 2000 mg/kg dermal, LD50, Rabbit: > 2000 mg/kg

Naphtha (petroleum), hydrotreated heavy oral, LD50, Rat: > 5000 mg/kg Method: OECD 401 dermal, LD50, Rabbit: > 2000 mg/kg

Barium bis(2-ethylhexanoate) oral, LD50, Rat inhalative (vapours), LC50, Rat (4 h)

Fatty acids, C14-18 and C16-18-unsatd., maleated

oral, LD50, Rat: > 2000 mg/kg Method: OECD 423

Reaction mass of 12-hydroxy-N-[2-[(1-oxodecyl)amino]ethyl]octadecanamide,

12-hydroxy-N-[2-[(1-oxooctyl)amino]ethyl]octadecanamide and N,N'-1,2-ethanediylbis[12-hydroxyoctadecanamide] oral, LD50, Rat: > 2000 mg/kg dermal, LD50, Rat: > 2000 mg/kg

Skin corrosion/irritation; Serious eye damage/eye irritation

Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics eyes
Hydrocarbons, C9, aromatics
Skin
Repeated exposure may cause skin dryness or cracking.
Respiratory or skin sensitisation

Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics : ; Evaluation No sensitising effect known

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Article No.:	KP709104GZ10	SolvSeal SportMarking COLOR

Specific target organ toxicity (single exposure)

Aspiration hazard

Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics Aspiration hazard

Hydrocarbons, C9, aromatics

Aspiration hazard Naphtha (petroleum), hydrotreated heavy

Aspiration hazard

Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: headache, dizziness, fatigue, amyosthenia, drowsiness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

Overall assessment on CMR properties

EC No. CAS No.	Designation	Classification according to Regulation (EC) No 1272/2008 [CLP]	
202-496-6 96-29-7	butanone oxime	Carc. 1B	

Remark

There is no information available on the preparation itself . The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and classified according to the toxicological dangers. See chapters 2 and 15 for details.

11.2. Information on other hazards

Endocrine disrupting properties No information available.

SECTION 12: Ecological information

Classification according to Regulation (EC) No 1272/2008 [CLP] Do not allow to enter into surface water or drains.

12.1. Toxicity

Harmful to aquatic organisms.

	Observe	amployment restrictio	as under the Maternity Protection Dire	ctive (92/85/EEC) for expectant or pursing mothers		

Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC).

Substance/product listed in the following inventories:

TSCA: All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption

15.2. Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

SECTION 16: Other information

56142 US Page 10 / 11

Full text of classification in section 3: Flam. Liq. 3 / H226 Flammable liquids Flammable liquid and vapour. Asp. Tox. 1 / H304 Aspiration hazard May be fatal if swallowed and enters airways. STOT SE 3 / H336 STOT-single exposure May cause drowsiness or dizziness. Skin Irrit. 3 / H316 Skin corrosion/irritation Causes mild skin irritation. Aquatic Acute 3 / H402 Hazardous to the aquatic environment Harmful to aquatic organisms. Harmful to aquatic life with long lasting effects. Aquatic Chronic 3 / H412 Hazardous to the aquatic environment STOT SE 3 / H335 STOT-single exposure May cause respiratory irritation. Aquatic Chronic 2 / H411 Hazardous to the aquatic environment Toxic to aquatic life with long lasting effects. Repr. 2 / H361 Reproductive toxicity Suspected of damaging the unborn child. May cause cancer (state route of exposure if it Carc. 1B / H350 Carcinogenicity is conclusively proven that no other routes of exposure cause the hazard). Acute Tox. 4 / H312 Acute toxicity (dermal) Harmful in contact with skin. Acute Tox. 3 / H301 Acute toxicity (oral) Toxic if swallowed. STOT SE 1 / H370 STOT-single exposure Causes damage to organs (or state all organs affected, if known) (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard). STOT RE 2 / H373 STOT-repeated exposure May cause damage to organs (or state all organs affected, if known) through prolonged or repeated exposure (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard). Skin Irrit. 2 / H315 Skin corrosion/irritation Causes skin irritation. Eve Dam. 1 / H318 Serious eye damage/eye irritation Causes serious eye damage. Respiratory or skin sensitisation May cause an allergic skin reaction. Skin Sens. 1 / H317 Acute Tox. 4 / H302 Acute toxicity (oral) Harmful if swallowed. Acute Tox. 4 / H332 Acute toxicity (inhalative) Harmful if inhaled. Aquatic Acute 1 / H400 Hazardous to the aquatic environment Very toxic to aquatic organisms. Aquatic Chronic 1 / H410 Hazardous to the aquatic environment Very toxic to aquatic life with long lasting effects. **Classification procedure** Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP] Flam. Liq. 3 Flammable liquids On basis of test data. Carc. 1B Carcinogenicity Calculation method. STOT SE 3 STOT-single exposure Calculation method. Aquatic Acute 3 Hazardous to the aquatic environment Calculation method. Aquatic Chronic 3 Hazardous to the aquatic environment Calculation method. Further information

Classification according to Regulation (EC) No 1272/2008 [CLP]

The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. Without written approval, the product must not be used for purposes different from those mentioned in section 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.
