Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Article No.: Print date: Version:	YP110004 27.02.202 8.0000	· · · · · ·	023 56142 US			
P264		Wash hands thoroughly after hand	dling.			
P271		Use only outdoors or in a well-ven	ntilated area.			
P272		Contaminated work clothing shoul	ld not be allowed out of the workplace.			
P280		Wear protective gloves and eye/fa	ace protection.			
P284		In case of inadequate ventilation v	wear respiratory protection.			
P302 + P35	52	IF ON SKIN: Wash with plenty of s	soap and water.			
P304 + P34	40	IF INHALED: Remove person to fresh air and keep comfortable for breathing.				
P305 + P35	51 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and				
		easy to do. Continue rinsing.				
P308 + P31	13	IF exposed or concerned: Get me	dical advice/attention.			
P312		Call a POISON CENTER or docto	pr/physician if you feel unwell.			
P333 + P31	13	If skin irritation or rash occurs: Ge	et medical advice/attention.			
P337 + P31	13	If eye irritation persists: Get medic	cal advice/attention.			
P342 + P31	11	If experiencing respiratory sympto	oms: Call a POISON CENTER or doctor/physician.			
P362 + P36	64	Take off contaminated clothing an	nd wash it before reuse.			
P403 + P23	33	Store in a well-ventilated place. Ke	eep container tightly closed.			
P405		Keep locked up.				
P501		Dispose of contents/container to in	industrial incineration plant.			
Hazard co	mponents f	or labelling				

Hazard components for labelling

2.3. Other hazards

No information available.

Other information

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Description Preparations containing isocyanates

Hazardous ingredients

GHS-US classification

CAS No.	Designation // Remark	weight-%
9016-87-9	Diphenylmethandiisocyanate, isomers and homologes	50 - 100
101-68-8	4,4'-methylenediphenyl diisocyanate	25 - 50

4.1. Description of first aid measures

General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

Following skin contact

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm.

Article No.:	YP11000ALN10	BergerBond P2 RapidRepair Härt	
Print date:	27.02.2023	Revision date: 27.02.2023	56142 US
Version:	8.0000	lssue date: 05.11.2022	Page 3 / 9

Do NOT induce vomiting.

- 4.2. **Most important symptoms and effects, both acute and delayed** In all cases of doubt, or when symptoms persist, seek medical advice.
- 4.3. **Indication of any immediate medical attention and special treatment needed** First Aid, decontamination, treatment of symptoms.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water)

Unsuitable extinguishing media strong water jet

5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

5.3. Advice for firefighters

Provide a conveniently located respiratory protective device.Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

6.2. Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advices on safe handling

Avoid formation of flammable and explosive vapour concentrations in the air and exceeding the exposure limit values. Only use the material in places where open light, fire and other flammable sources can be kept away. Electrical equipment must be protected meeting the accepted standard. Keep away from heat sources, sparks and open flames. Use only spark proof tools. Avoid contact with skin, eyes and clothes. Do not inhale dusts, particulates and spray mist when using this preparation. Avoid respiration of swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

Further information

Vapours are heavier than air. Vapours form explosive mixtures with air.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

Further information on storage conditions

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 15 °C and 25 °C. Protect from heat and direct sunlight.

Due to the content of organic solvents in the preparation:

Article No.:	YP11000ALN10	BergerBond P2 RapidRepair Härt	
Print date:	27.02.2023	Revision date: 27.02.2023	56142 US
Version:	8.0000	Issue date: 05.11.2022	Page 4 / 9

Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

7.3. Specific end use(s)

Observe technical data sheet.Observe instructions for use.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limit values

4,4'-methylenediphenyl diisocyanate

Index No. 615-005-00-9 / EC No. 202-966-0 / CAS No. 101-68-8

ACGIH, TWA: 0,005 ppm

NIOSH, TWA: 0,05 mg/m3; 0,005 ppm NIOSH, C: 0,2 mg/m3; 0,02 ppm

OSHA, C: 0,2 mg/m3; 0,02 ppm

Additional information

TWA : Long-term occupational exposure limit value STEL : short-term occupational exposure limit value C : peak limitation

DNEL:

4,4'-methylenediphenyl diisocyanate Index No. 615-005-00-9 / EC No. 202-966-0 / CAS No. 101-68-8 DNEL acute inhalative (local), Workers: 0,1 mg/m³ DNEL long-term inhalative (local), Workers: 0,05 mg/m³

8.2. Exposure controls

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

Personal protection equipment

Respiratory protection

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190). Use only respiratory protection equipment with CE-symbol including four digit test number.

Hand protection

For prolonged or repeated handling the following glove material must be used: Butyl caoutchouc (butyl rubber)

Thickness of the glove material > 0,4 mm ; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

Eye/face protection

Wear closely fitting protective glasses in case of splashes.

Body protection

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

Protective measures

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

Environmental exposure controls

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

10.6. Hazardous decomposition products

Hazardous decomposition byproducts may form with exposure to high temperatures, e.g.: carbon dioxide, carbon monoxide, smoke, nitrogen oxides.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Harmful if inhaled.

4,4'-methylenediphenyl diisocyanate inhalative (dust and mist), LC50, Rat (4 h)

Diphenylmethandiisocyanate, isomers and homologes oral, LD50, Rat: > 10000 mg/kg ; Evaluation low toxicity dermal, LD50, Rabbit: > 9400 mg/kg inhalative (dust and mist), LC50, Rat: 0,49 mg/L (4 h)

Skin corrosion/irritation; Serious eye damage/eye irritation

56142 US Page 6 / 9

Article No.:	YP11000ALN10	BergerBond P2 RapidRepair Härt
Print date:	27.02.2023	Revision date: 27.02.2023
Version:	8.0000	Issue date: 05.11.2022

Causes skin irritation.

Causes serious eye irritation.

Diphenylmethandiisocyanate, isomers and homologes

Skin (4 h)

Causes mild skin irritation.

eyes: Evaluation may cause moderate eye irritation

Respiratory or skin sensitisation

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

May cause an allergic skin reaction.

Diphenylmethandiisocyanate, isomers and homologes Skin: ; Evaluation May cause an allergic skin reaction. Respiratory system:

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Suspected of causing cancer.

Diphenylmethandiisocyanate, isomers and homologes

Carcinogenicity; Evaluation Lung tumors have been observed in laboratory animals exposed to respirable aerosol droplets of MDI/Polymeric MDI (6 mg/m3) for their lifetime. Tumors occurred concurrently with respiratory irritation and lung injury. Current exposure guidelines are expected to protect against these effects reported for MDI.

STOT-single exposure; STOT-repeated exposure

May cause respiratory irritation.

May cause damage to organs through prolonged or repeated exposure.

Diphenylmethandiisocyanate, isomers and homologes Specific target organ toxicity (single exposure), Irritation Specific target organ toxicity (repeated exposure)

Aspiration hazard

Based on available data, the classification criteria are not met.

Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: headache, dizziness, fatigue, amyosthenia, drowsiness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

Overall assessment on CMR properties

The ingredients in this mixture do not meet the criteria for classification as CMR category 1A or 1B according to CLP.

Remark

There is no information available on the preparation itself . The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and classified according to the toxicological dangers. See chapters 2 and 15 for details.

11.2. Information on other hazards

Endocrine disrupting properties

No information available.

SECTION 12: Ecological information

Classification according to Regulation (EC) No 1272/2008 [CLP] Do not allow to enter into surface water or drains.

12.1. Toxicity

Diphenylmethandiisocyanate, isomers and homologes Fish toxicity, LC50, Danio rerio: > 1000 mg/L (96 h) Daphnia toxicity, EC50, Daphnia magna (Big water flea): > 1000 mg/L (24 h)

Long-term Ecotoxicity

Sea transport (IMDG)

EmS-No.

not applicable

14.7. Maritime transport in bulk according to IMO instruments

No transport as bulk according IBC - Code.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal regulations

Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances [Seveso-III-Directive] This product is not classified according to Directive 2012/18/EU.

Directive 2010/75/EU on industrial emissions [Industrial Emissions Directive]

VOC-value (in g/L) ISO 11890-2: 0

VOC-value (in g/L) ASTM D2369: 0

National regulations

Restrictions of occupation

Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC).

Substance/product listed in the following inventories:

TSCA: All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption

15.2. Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

SECTION 16: Other information

Full text of classif	fication in section 3:	
Acute Tox. 4 / H33	2 Acute toxicity (inhalative)	Harmful if inhaled.
Skin Irrit. 2 / H315	Skin corrosion/irritation	Causes skin irritation.
Eve Irrit. 2 / H319	Serious eye damage/eye irritation	Causes serious eye irritation.
Skin Sens. 1 / H31		May cause an allergic skin reaction.
Resp. Sens. 1 / H3		May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Carc. 2 / H351	Carcinogenicity	Suspected of causing cancer (state route of exposure if it is conclusively proven that no
		other routes of exposure cause the hazard).
STOT RE 2 / H373	STOT-repeated exposure	May cause damage to organs (or state all organs affected, if known) through prolonged or repeated exposure (state route of exposure if it is conclusively proven that no other routes of
		exposure cause the hazard).
STOT SE 3 / H335	STOT-single exposure	May cause respiratory irritation.
Classification pro	ocedure	
Classification for m	nixtures and used evaluation method according to	regulation (EC) No 1272/2008 [CLP]
Acute Tox. 4	Acute toxicity (inhalative)	Calculation method.
Skin Irrit. 2	Skin corrosion/irritation	Calculation method.
Eye Irrit. 2	Serious eye damage/eye irritation	Calculation method.
Resp. Sens. 1	Respiratory or skin sensitisation	Calculation method.
Skin Sens. 1	Respiratory or skin sensitisation	Calculation method.
Carc. 2	Carcinogenicity	Calculation method.
STOT SE 3	STOT-single exposure	Calculation method.
STOT RE 2	STOT-repeated exposure	Calculation method.

Further information

Classification according to Regulation (EC) No 1272/2008 [CLP]

The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. Without written approval, the product must not be used for purposes different from those mentioned in section 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.
