SECTION 4: First aid measures	SEC	TION 4: Fi	rst aid measures				

Article No.:	ZX01S00A0P10	Brilliance Superwax	
Print date:	27.02.2023	Revision date: 27.02.2023	56142 US
Version:	5.0001	Issue date: 18.11.2022	Page 2 / 7

#### 4.1. Description of first aid measures

#### **General information**

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

#### In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

#### Following skin contact

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

#### After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

#### **Following ingestion**

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

## 4.2. Most important symptoms and effects, both acute and delayed

In all cases of doubt, or when symptoms persist, seek medical advice.

4.3. **Indication of any immediate medical attention and special treatment needed** First Aid, decontamination, treatment of symptoms.

## **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water)

## Unsuitable extinguishing media

strong water jet

#### 5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

## 5.3. Advice for firefighters

Provide a conveniently located respiratory protective device.Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

#### 6.2. Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

#### 6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

## 6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

# SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

#### Advices on safe handling

Avoid formation of flammable and explosive vapour concentrations in the air and exceeding the exposure limit values. Only use the material in places where open light, fire and other flammable sources can be kept away. Electrical equipment must be protected meeting the accepted standard. Keep away from heat sources, sparks and open flames. Use only spark proof tools. Avoid contact with skin, eyes and clothes. Do not inhale dusts, particulates and spray mist when using this preparation. Avoid respiration of swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Do not

Article No.:	ZX01S00A0P10	Brilliance Superwax	
Print date:	27.02.2023	Revision date: 27.02.2023	56142 US
Version:	5.0001	lssue date: 18.11.2022	Page 3 / 7

empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

#### **Further information**

Vapours are heavier than air. Vapours form explosive mixtures with air.

### 7.2. Conditions for safe storage, including any incompatibilities

## Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

#### Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

## Further information on storage conditions

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 15 °C and 25 °C. Protect from heat and direct sunlight.

Due to the content of organic solvents in the preparation:

Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

## 7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

## SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

#### Occupational exposure limit values

not applicable

## 8.2. Exposure controls

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

#### Personal protection equipment

#### **Respiratory protection**

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190). Use only respiratory protection equipment with CE-symbol including four digit test number.

## Hand protection

For prolonged or repeated handling the following glove material must be used: Butyl caoutchouc (butyl rubber)

Thickness of the glove material > 0,4 mm ; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

## Eye/face protection

Wear closely fitting protective glasses in case of splashes.

#### Body protection

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

#### Protective measures

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

#### **Environmental exposure controls**

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

## **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

Physical state:	
Colour:	

solid light yellow

cyclics, < 2%		
cyclics, < 2%		
No information available. <b>Chemical stability</b> Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7.		
Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions. <b>Conditions to avoid</b> Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7. Hazardous decomposition byproducts may form with exposure to high temperatures.		
carbon monoxide,		

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics oral, LD50, Rat: > 5000 mg/kg dermal, LD50, Rabbit: > 5000 mg/kg oral, LC50, Rat: > 5 mg/L

## Method: OECD 403

#### Skin corrosion/irritation; Serious eye damage/eye irritation

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics

## eyes Respiratory or skin sensitisation

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Based on available data, the classification criteria are not met.

#### STOT-single exposure; STOT-repeated exposure

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics

Specific target organ toxicity (single exposure) Evaluation The substance or mixture is not rated as target-organ-toxic Aspiration hazard

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics Aspiration hazard; Evaluation May be fatal if swallowed and enters airways.

#### Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: headache, dizziness, fatigue, amyosthenia, drowsiness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

#### **Overall assessment on CMR properties**

The ingredients in this mixture do not meet the criteria for classification as CMR category 1A or 1B according to CLP.

#### Remark

There is no information available on the preparation itself. The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and classified according to the toxicological dangers.See chapters 2 and 15 for details.

## 11.2. Information on other hazards

#### Endocrine disrupting properties No information available.

## **SECTION 12: Ecological information**

Classification according to Regulation (EC) No 1272/2008 [CLP] Do not allow to enter into surface water or drains.

#### 12.1. Toxicity

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics Fish toxicity, LL0, Oncorhynchus mykiss (Rainbow trout) (96 h) Daphnia toxicity, EL0, Daphnia magna (Big water flea): 1000 mg/L (48 h) Algae toxicity, EL0, Pseudokirchneriella subcapitata: 72 mg/L (72 h)

## Long-term Ecotoxicity

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics Fish toxicity, NOELR, Oncorhynchus mykiss (Rainbow trout): 0,1 mg/L (28 D) Daphnia toxicity, NOELR, Daphnia magna (Big water flea): 0,18 mg/L (21 D)

## 12.2. Persistence and degradability

Toxicological data are not available.

#### 12.3. Bioaccumulative potential

Toxicological data are not available.

# Bioconcentration factor (BCF)

Toxicological data are not available.

## 12.4. Mobility in soil

Toxicological data are not available.

#### 12.5. Results of PBT and vPvB assessment

Article No.: Print date: Version:	ZX01S00A0P10 27.02.2023 5.0001	Brilliance Superwax Revision date: 27.02.2023 Issue date: 18.11.2022	56142 US Page 6 / 7

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

- 12.6. **Endocrine disrupting properties** No information available.
- 12.7. Other adverse effects

No information available.

## **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

## Appropriate disposal / Product

## Recommendation

Do not allow to enter into surface water or drains. This material and its container must be disposed of in a safe way. Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

# List of proposed waste codes/waste designations in accordance with EWC

080112 waste paint and varnish other than those mentioned in 08 01 11

## Appropriate disposal / Package

#### Recommendation

Non-contaminated packages may be recycled. Vessels not properly emptied are special waste.

not applicable

not applicable

not applicable

#### **SECTION 14: Transport information**

#### No dangerous good in sense of this transport regulation.

14.1. UN number or ID number

## 14.2. UN proper shipping name

- 14.3. Transport hazard class(es)
- 14.4. Packing group

## 14.5. Environmental hazards

Land transport (ADR/RID)	not applicable
Marine pollutant	not applicable

#### 14.6. Special precautions for user

Transport always in closed, upright and safe containers. Make sure that persons transporting the product know what to do in case of an accident or leakage.

Advices on safe handling: see parts 6 - 8

#### **Further information**

#### Land transport (ADR/RID)

Tunnel restriction code

Sea transport (IMDG)

EmS-No.

#### not applicable

#### 14.7. Maritime transport in bulk according to IMO instruments

No transport as bulk according IBC - Code.

## SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **US Federal regulations**

Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances [Seveso-III-Directive] This product is not classified according to Directive 2012/18/EU.

#### Directive 2010/75/EU on industrial emissions [Industrial Emissions Directive]

VOC-value (in g/L) ISO 11890-2: 575 VOC-value (in g/L) ASTM D2369: 575

Article No.:	ZX01S00A0P10	Brilliance Superwax	
Print date:	27.02.2023	Revision date: 27.02.2023	56142 US
Version:	5.0001	Issue date: 18.11.2022	Page 7 / 7

#### **National regulations**

#### **Restrictions of occupation**

Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC).

#### 15.2. Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

#### **SECTION 16: Other information**

Full text of classification in section 3:					
Asp. Tox. 1 / H304	Aspiration hazard	May be fatal if swallowed and enters airways.			
Abbreviations and acronyms					
ADR	European Agreement concerning the Intern	ational Carriage of Dangerous Goods by Road			
OEL	Occupational Exposure Limit Value				
BLV	Biological Limit Value				
CAS	Chemical Abstracts Service				
CLP	Classification, Labelling and Packaging				
CMR	Carcinogenic, Mutagenic and Reprotoxic				
DIN	German Institute for Standardization / Germ	an industrial standard			
DNEL	Derived No-Effect Level				
EAKV	European Waste Catalogue Directive				
EC	Effective Concentration				
EC	European Community				
EN	European Standard				
IATA-DGR	International Air Transport Association – Da				
IBC Code		Equipment of Ships carrying Dangerous Chemicals in Bulk			
ICAO-TI	International Civil Aviation Organization Technical Instructions for the Safe Transport of Dangerous				
	Goods by Air				
IMDG Code	International Maritime Code for Dangerous				
ISO	International Organization for Standardization	on			
LC	Lethal Concentration				
LD	Lethal Dose				
MARPOL		ntion for the Prevention of Pollution from Ships			
OECD	Organisation for Economic Cooperation and	l Development			
PBT	persistent, bioaccumulative, toxic				
PNEC	Predicted No Effect Concentration				
REACH	Registration, Evaluation, Authorisation and				
RID	Regulations concerning the International Ca	arriage of Dangerous Goods by Rail			
UN	United Nations				
VOC	Volatile Organic Compounds				
vPvB	very persistent and very bioaccumulative				

#### **Further information**

Classification according to Regulation (EC) No 1272/2008 [CLP]

The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. Without written approval, the product must not be used for purposes different from those mentioned in section 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.
